

Local search 101

Modern consumers start their shopping journeys on search engines and online directories. The results they get from those sites determine where they spend their money. If you don't appear in the local search results, that sale goes to your competitor.

Why local?

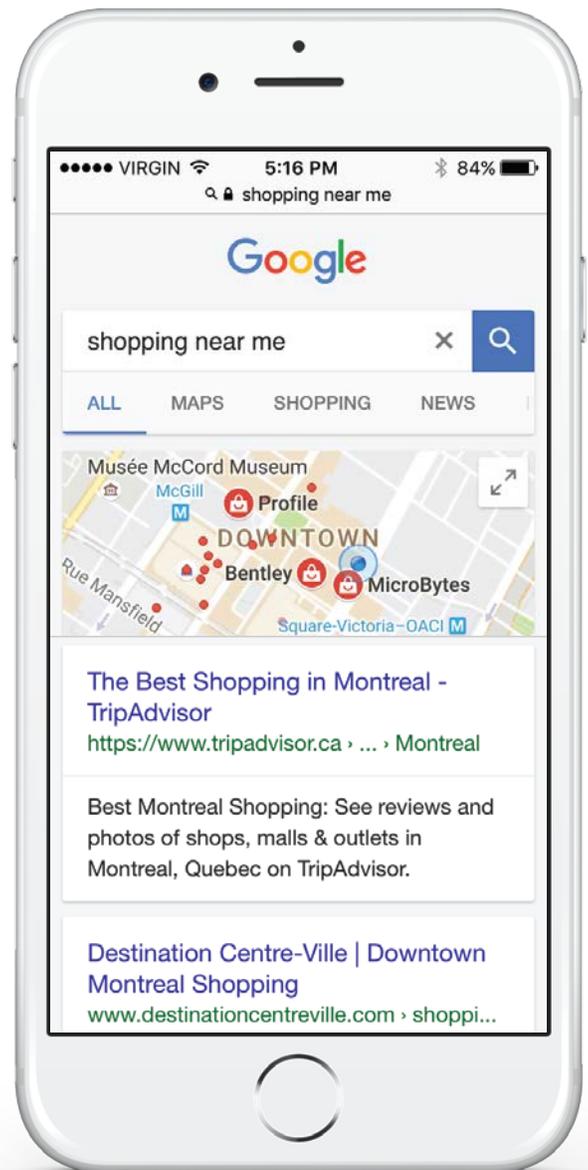

Marketing is about connecting with your customers. And today's consumer is local, and they are mobile. Consumers are searching for your business on their smartphones, and if you aren't there - they will choose your competition.

Mobile for the win.

Mobile internet use overtook desktop use in 2015. Not only is Search the most used resource, it's the resource 87% of people turn to first. 92% of those who searched on their phone made a related purchase and you need to be part of these journey with picture perfect listings, so you get chosen over your competitors (Source: Google).

If you want to go local, you have to be on mobile, where your customers are.

Listings management

Inaccurate listings lead to missed opportunities

We help you get found online.

Every error in your business information across the internet reduces your chances of showing up when potential customers search online. For example, a listing without a phone number would drive 47% of Google search users to consider an alternative seller.

Finding all your errors on your own is impossible.

Leave it to us, we'll do the hard work for you while tracking progress as we go. We make sure that every one of your listings is correct, so you never miss out on an opportunity.

How accurate are your local listings?

Reputation management

Make sure you look good in your customer's eyes

**90% of consumers
say buying decisions are
influenced by online reviews**

(Source: Marketing Land)

A lack of reviews for your business can lead to you losing customers.

You need them to get talking about you so search engines bump you to the top of their results. This will also help potential customers take you more more seriously.

**With our platform you are able to monitor reviews,
respond to them in real time and stay on top of your online reputation.**

- Access to all existing and new reviews directly in the platform
 - Review notifications available via email
 - Respond directly from the platform to reviews
 - Solicit reviews from your happy customers
-

Are you leveraging reviews and ratings for your brand?

Sites like Yelp, Google+ and TripAdvisor influence 3x more sales than a brand's own website.

Ratings & reviews can help people find – and notice – your business. The more reviews you have, and the higher your ratings, the more likely that customers will find and choose you. If customers have a positive experience and help to create a buzz, your reputation grows.

Online searchers are making decisions based on what is being (or isn't) said about your business.

It's crucial to keep a finger on the pulse of the conversation surrounding your business by tracking, monitoring, and responding to what people are saying about you.

**Sounds overwhelming? That's because it is.
Our automated tool allows you to :**

- ✓ Track historical review data from the first to the most recent and see how brand sentiment has changed over time.
- ✓ Instantly see your average rating across major search engines
- ✓ Connect with your audience and ask them to help build your online reputation with more reviews.

We get you listed where it matters.

Actionable analytics

**The right data to make the right decision:
insightful analytics help drive performance.**

We pull data from the most important directories to give you an overview of your local marketing performance.

Track your online-to-offline performance including potential revenue and key metrics such as clicks to call, directions and website visits.

Our dashboard gives you access to information about a specific location, a region or all your locations at once. This allows you to strategize with more accuracy and allocate the right resources where they're needed the most. You can get as general or as granular as you want.

Through our integration with platforms like Foursquare, Bing, Google My Business and Facebook, you can see additional metrics like views, check-ins, high traffic times, user demographics, and more.

What you need to know in one place :

Conversion Funnel: Understand how much revenue your local marketing is generating.

Clicks-to-call and driving directions: demonstrate in-store traffic generated and how this traffic is converted into a sale

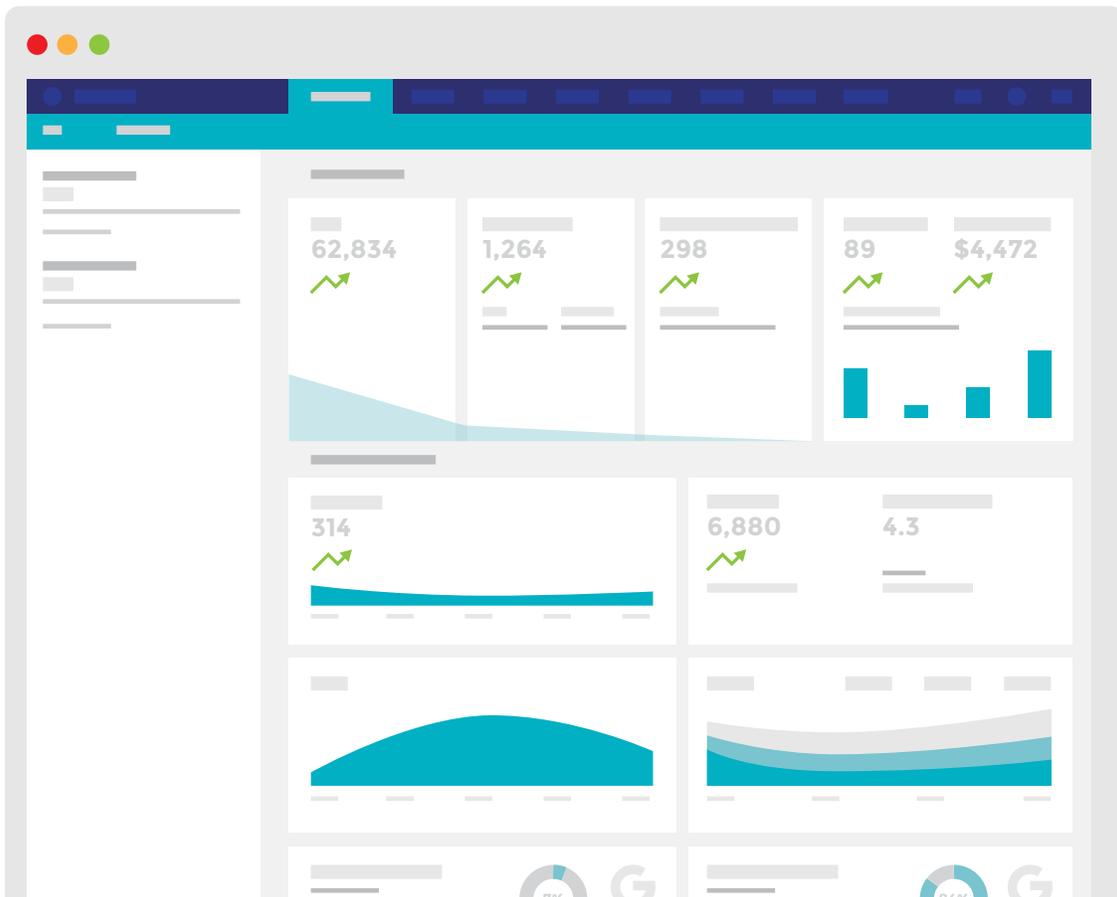

Monitor your listings individually or all together: Keep an eye on your coverage and accuracy for each directory.

Location CMS: update your listing information within the platform.

Monitor your online reputation: You are getting reviewed by your customers - and you need to know what they're saying about you. Assess your overall brand sentiment, volume of reviews to track over time and even a detailed view of each review, so you can respond or use them for your next case story.

Keyword ranking monitoring: identify content opportunities and complement local campaign targeting with complete keyword data.

Generate detailed performance reports for each location This will help you refine and optimize your strategy.

We get you listed where it matters.
